## Grand Re-Opening Celebrations for McDonald's Restaurant, Heritage Plaza Ajax

On March 31, 2012, Ajax was visited by a celebrity: Ronald McDonald! Everyone's favourite red-haired, red-shoed, yellow-suited guy was here to help Bradley and Robin Jacobson with the Grand Re-Opening of the Heritage Plaza McDonald's Restaurant. "By the end of 2012, every [McDonald's] restaurant in Canada will be refurbished and remodeled," explains Bradley Jacobson, owner/operator of the Heritage restaurant, "This is in fact the last of the four restaurants in Ajax. All four of them have been completely renovated, all different styles and thoroughly modern day with flat screen televisions; very contemporary, very relevant and our customers are loving it." The Jacobson's final restaurant to be refurbished, the Heritage site has gone bistro with dark wood veneer, comfy benches and free wi-fi. Add to this the expanded menu and McCafé and Bradley has noticed a new crowd is now frequenting his restaurants. "Often during the week we have an array of people with their laptops and tablets. Business people are using us more and more".
